ALESSANDRA SACO-VERTIZ

Bio

I was born in Lima, Peru, in 2000. I currently live in Valencia, Spain, where I work at the Real Club Náutico de Valencia while developing my artistic practice. I specialized in painting and sculpture, and I am currently focused on advancing my own artistic practice through research, experimentation, and project development. My work explores materials such as polyurethane foam and plastic, with a particular interest in themes surrounding the body, technology, and their convergence. Through my practice, I seek to contextualize these ideas within the contemporary environments in which we coexist, using art as a means of observation, reflection, and critical inquiry. I have participated in several group exhibitions and have organized three solo exhibitions.

Solo Shows

2023
-Cuerpo Sometido - Espai Llimera, Valencia.

2024
-Cuerpo Sometido II - Espai Jove, Valencia.

2026
-Neosomático- Veroneta Studio, Valencia

Education

Bachelor's Degree in Painting, Pontifical Catholic University of Peru

I began my studies at the Pontifical Catholic University of Peru (PUCP) in 2017. Shortly afterwards, I moved to Valencia to continue my education.

Bachelor's Degree in Fine Arts, Universitat Politècnica de València

I transferred from my previous university in Lima, Peru, to the Universitat Politècnica de València (UPV) in 2020. I graduated with a Bachelor's degree in Fine Arts in 2023, specialising in Painting and Sculpture.

Master's Degree in Artistic Production, Universitat Politècnica de València

After graduating with a Bachelor's degree in Fine Arts in 2023, I continued my education at the Universitat Politècnica de València (UPV), enrolling in the Master's Degree in Artistic Production. This programme allowed me to orient my artistic practice towards research, development, and the realisation of a coherent body of work, with the aim of presenting it through the master's exhibition platforms, such as PAM!.

Through this experience, I focused my practice on the development of exhibition projects while also participating in the organisation of both solo and group exhibitions. Overall, this stage enabled me to further consolidate my artistic practice and continue developing the projects I had previously initiated. I graduated from the programme in June 2025.

Residencies
